This thing we are all a part of, it's living history. Our children are all a part of this and it will be talked about for generations to come. Schools are closed; sports are cancelled; people are quarantined...on a GLOBAL level.

The best thing your children can do is keep a journal over the next 5+ weeks whether it be handwritten, typed, photographs, drawings...record events, day to day activities, fears and feelings. Let them make a video journal if that's what they prefer. As parents, let them interview you, be part of it. When it's all over save it/store it in a safe place for them.

They will share this with their children and grandchildren. Help them create a tangible, primary source of their own history.
